Intro

Welcome to the Labour Force Survey

The survey is about what you do on a daily basis and is relevant to everyone, whether you are working, unemployed, studying, retired or otherwise - as labour market disconnection is also of interest.

It is conducted all year round, even during holiday periods.

You can pause and continue later.

B1HVEM Is this interview being answered by {{personnavn}}?

IP's ægtefælle/kæreste/forælder må kun interviewes, hvis IP er meget svær at få fat i.
Kvaliteten af svarene bliver typisk noget lavere, når det er en anden, der svarer på IP's vegne.
Hvis IP er syg og selv er indforstået med det, er det i orden at interviewe partneren eller forælder.
Børn må ikke interviewes om deres forældres arbejdsforhold.

Arbstatus

Tak fordi du vil besvare web-skemaet for {{personnavn}}. Vær venligst opmærksom på, at det er {{personnavn}}'s situation og ikke din situation, som vi ønsker svar på.

We will now ask you a series of questions about your employment situation. Your responses are very important to the study, so we kindly ask you to answer all questions as accurately as possible.
Please note that voluntary work – for example, in associations or for charities – is not included in this survey.

Only answer this question if proxy Contains Any 1 Ja or 2 Nej

B1Arb Did you have paid work in the week from {{refugetxtlang}}?
We are interested in any work that gave you an income regardless of whether you primarily consider yourself retired or not and even if it was for only one hour.

Arbejde medregnes, når disse tre kriterier er opfyldt:
Arbejdet er udført:
1. I mindst 1 time i løbet af en uge
2. Mod betaling – også selv om det er sort arbejde.
Betaling kan ske i kontanter/penge, varer eller goder, som er serviceydelser, eller betaling i naturalier.
Personalegoder medtages ikke som en betalingsmåde.
Betaling i form af serviceydelser eller betaling i naturalier er nok mest brugt ved afregning/betaling af sort arbejde.

3. Vi er ikke kun interesseret i arbejde, der foretages i Danmark, men også i udlandet. Hvis en IP bor i Danmark, men arbejder i udlandet, skal vedkommende også betragtes som beskæftiget og svare på spørgsmål om sit job i udlandet.

Nogle IP'ere opfatter det at have 1 eller 2 timers arbejde som ikke at have et arbejde.
Husk at selv om IP midlertidigt er væk fra arbejde i referenceugen, betragtes IP alligevel som at have arbejde.

Følgende former for arbejde medtages:
1. Alt arbejde som lønmodtager
2. Arbejde som selvstændig
3. Sort arbejde
4. Ulønnet arbejde i familiens virksomhed (dette er den eneste form for ulønnet arbejde, der skal medtages)
5. Personer der modtager lærlinge- / elevløn som del af deres uddannelse
6. Personer som er i privat & offentligt løntilskud, får supplerende dagpenge mv., og som har fx 1 times arbejde om ugen eller mere
7. Hvis IP er opsagt og stadig modtager løn, (fritstillet) skal kode 1 benyttes, selvom IP ikke længere møder på arbejdspladsen
8. Studerende som er i praktik og som både får SU og en form for "løn"
9. Værnepligt

Følgende former for arbejde medtages ikke:
1. Frivilligt arbejde
2. Ulønnet praktikforløb / praktikanter, dvs. studerende som er i praktik og som kun får SU, kodes som studerende.

3. Nyttejobs (udsendt af kommunen)
4. Virksomhedspraktik 4-6 uger udsendt af jobcentret
5. Arbejdsprøvning/ressource forløb, IP får en offentlig ydelse, og IKKE løn

☐ Yes
☐ No

Only answer this question if B1Arb Contains Any 2 Nej and proxy Contains Any 1 Ja or 2 Nej

B1Midl Even if you didn't work that particular week, did you have a job from which you were absent due to holiday, illness, leave or by agreement with your employer, or had you secured a job that you hadn't started yet?

Midlertidigt fravær kan bl.a. skyldes én af følgende årsager: Ferie, sygdom, barselsorlov, uddannelsesorlov, orlov til pasning af syge, anden orlov, strejke, dårligt vejr, osv.

Hvis IP'er har en aftale med arbejdsgiver om at vende tilbage til arbejdet, betragtes IP'er som midlertidigt fraværende. Dette vil oftest være tilfældet for sæsonarbejdere, personer på barselsorlov, uddannelsesorlov mv.

Hvis der er tvivl om, hvorvidt IP'er er midlertidigt fraværende, kan interviewer spørge IP, om han/hun modtager løn eller andre midlertidige offentlige overførsler som fx barsels-dagpenge. Er dette tilfældet, bliver IP'er betragtet som midlertidigt fraværende.

Hvis IP'er er selvstændige erhvervsdrivende, vil der være tale om midlertidigt fravær, hvis IP'er skal vende tilbage til sin eksisterende virksomhed efter endt ferie, orlov eller andet.

Hvis IP'er har foretaget investeringer til opstart af selvstændig virksomhed, men ikke er helt færdigetableret endnu, er IP beskæftiget selvstændig.
Hvis IP derimod gerne vil etablere og er i gang med at undersøge muligheder for at købe lokaler, udstyr, hyre arbejdskraft m.v., men ikke har gjort det endnu, er IP'er ikke-beskæftiget.

☐ Yes
☐ No

Only answer this question if B1Midl Contains Any 2 Nej and proxy Contains Any 1 Ja or 2 Nej

B1UdenL Do you provide unpaid assistance in a business or on a farm owned by a member of your family?

(Other unpaid work/assistance such as voluntary work is not included)

Vi stiller dette spørgsmål, fordi dette er den eneste form for ulønnet beskæftigelse, der medregnes som beskæftigelse.
Det er en betingelse for at blive medregnet, at IP'er skal dele husholdning med (=bo på samme adresse som) det familiemedlem, der ejer virksomheden.

☐ Yes
☐ No

Only answer this question if (B1Arb Contains Any 1 Ja) Or (B1UdenL Contains Any 1 Ja) and proxy Contains Any 1 Ja or 2 Nej

B1ArbSid Were you at work during the week {{hjtxt_B1ArbSid}}?

☐ Yes, I worked for at least one hour

☐ No, I was temporarily absent

We are now going to ask you a few questions regarding absenteeism.

Only answer this question if (B1Midl Contains Any 1 Ja) Or (B1ArbSid Contains Any 2 Nej, var midlertidigt fraværende) and proxy Contains Any 1 Ja or 2 Nej

FRAVAER What was the reason for your absence from work that week?

Kode 2
Med i denne kategori er bl.a. personer som har arbejdstidsaftaler hvor man eksempelvis ikke arbejder hver uge, 0-timers kontrakter samt personer der har oparbejdet flekstid eller afspadsering og af den grund ikke arbejdede i referenceugen

Kode 4
Barselsorlov omfatter mødres ret til 4 ugers orlov før fødslen og 14 ugers orlov efter fødslen. Fædre har ret til 2 ugers fædreorlov, som skal holdes i løbet af de første 14 uger efter fødslen. Fravær på grund af børns sygdom kodes under "Andre grunde" dvs. kode 10

Kode 5
Der er tale om jobrelateret uddannelse hvis blot ét af følgende kriterier er til stede:
- Respondentens deltagelse i kurset/uddannelsen er påkrævet af arbejdsgiveren
- Kurset/uddannelsen foregår inden for normal arbejdstid (og ikke mens respondenten er på en eller anden form for orlov)
- Kurset/uddannelsen er direkte forbundet til nuværende job og betalt af arbejdsgiveren
Selvstændige kan godt falde inden for denne kategori såfremt den anden og tredje af ovenstående betingelser er til stede

Kode 6
Forældreorlov dækker over de 32 uger som fædre og mødre har til deling. For fædre kan denne starte så snart de to ugers fædreorlov er taget, mens det for mødre først kan starte efter de 14 ugers barselsorlov efter fødslen er afviklet

Kode 7
Lav sæson dækker typisk over typer af arbejde der foregår på specifikke årstider (juletræsplantager, udlejning af ferieboliger og meget andet)

☐ Holidays, days off
☐ Working time arrangements, compensation of overtime, etc.
☐ Own illness, injury or temporary disability
☐ Job-related training
☐ Maternity leave (including pregnancy and parental leave)
☐ Off-season / low season
☐ Got a job but hadn't started yet
☐ Other reasons (e.g. leave for taking care of someone else, laid off, furloughed with pay)

Only answer this question if FRAVAER Contains Any 6 Barsel (inkl. graviditets- og forældreorlov) and proxy Contains Any 1 Ja or 2 Nej

BARNFOD How old is/are the child /children with whom you are taking leave?

☐ Not yet born
☐ Less than 10 weeks old
☐ 10 weeks old or older

LOENOR Do you receive any job-related income (or benefit) while you are on parental leave?

☐ Yes
☐ No

Only answer this question if (LOENOR Contains Any 2 Nej) Or (LOENOR Don't Know) and proxy Contains Any 1 Ja or 2 Nej

TIDOR What is the expected duration of your parental leave?

☐ Three months or less
☐ More than three months

Only answer this question if FRAVAER Contains Any 7 Lav-sæson / stille periode and proxy Contains Any 1 Ja or 2 Nej

SASON9 Do you perform any job-related tasks (e.g. supervision) during the off-season?

Der er tale om arbejdsopgaver som ikke har ligget i referenceugen.
Man får kun dette spørgsmål fordi man har angivet, at man netop ikke har arbejdet i referenceugen.
Så arbejdsopgaver i lav-sæson er altså arbejdsopgaver der er udført på andre tidspunkter end netop referenceugen.
Der kan være tale om alt muligt såsom at føre opsyn med ferieboliger der ikke bruges etc.

☐ Yes
☐ No

Only answer this question if (FRAVAER Contains Any 9 Andre årsager (fx plejeorlov, sorgorlov, fritstillet)) And (proxy Contains Any 1 Ja) and proxy Contains Any 1 Ja or 2 Nej

TIDFRAVWhat is the expected duration of your absence?

Dem der svarer TIDFRAV=1 er bekæftigede, de øvrige svar er ikke beskæftigede

☐ Three months or less
☐ More than three months

Only answer this question if (proxy Contains Any 2 Nej) And (FRAVAER Contains Any 9 Andre årsager (fx plejeorlov, sorgorlov, fritstillet)) and proxy Contains Any 1 Ja or 2 Nej

TIDFRAVNY What is the expected duration of your absence?

☐ Three months or less
☐ More than three months

Only answer this question if beskaeftiget Contains Any 1 Ja

ANTJOB How many jobs did you have in the relevant week?
If you are an employee, each employment contract counts as one job.
If you are self-employed, each of your businesses counts as a separate job
Voluntary work is not included, but unpaid work as a helper in a family business should be counted.
Count all jobs, even if you did not work in them during the week

Hvis en person supplerer lønnen med at holde foredrag en gang imellem og ikke er på arbejde i referenceugen, tæller det stadig som bijob, men IP er bare midlertidigt fraværende fra det.
Hvis fx en landmand i høstperioden også driver maskinstation (udlejer sin mejetærsker), skal IP selv vurdere, hvorvidt der er tale om et bijob eller en del af hovedjobbet.
Reserveofficer kodes typisk som bijob.

IP's bijob kan godt være på samme arbejdsplads, som IP's hovedjob, dog skal der foreligge 2 kontrakter før der er tale om 2 jobs.

Næste gang vi skal i kontakt med IP, kan IP's bijob, godt være IP's hovedjob, og omvendt.

Hvis en plejemor/far søger om et ekstra barn, så får IP ikke nyt job, eftersom rammerne for jobbet er det samme.
Men hvis IP søger job i en anden kommune, så er det et nyt job, da arbejdsgiveren ikke er den samme.

☐ Et
☐ To
☐ Tre eller flere

In the following questions, you will be asked about your main job. This is the job that you generally work the most hours in. If you work an equal number of hours in your main job and your side job, your main job is the one that gives you the highest income.

Only answer this question if (b2_tidl Equal to 1) And (beskaeftiget Contains Any 1 Ja)

B2SKIFT Have you changed {{hjtxt_hjob}} since you last took part in this survey in {{sidsteinttxt}}?
Answer 'Yes' if you have changed position, even if you still have the same employer

Denne variabel skal bruges til at afklare, om vi kan anvende genbrug. Dette kan kun ske, hvis IP svarer nej til dette spm.

☐ Yes
☐ No

Beskstatus

Only answer this question if beskaeftiget Contains Any 1 Ja

B2Status Do you work as:

Are you a freelancer or consultant and unsure which category to choose?

Select employee if you are employed and receive a salary or wages from an employer.
Select self-employed if you work on your own account, for example by invoicing clients or finding your own assignments.
If you are both an employee and self-employed, answer based on the work you mainly performed during the reference week.

Hvis IP siger han/hun er selvstændig, kan han/hun godt være ansat som lønmodtager i sit eget firma. IP vurderer så selv hvad han/hun primært er.

Hvis IP's firma er et anpartsselskab, hvor IP er direktør/leder, er IP ikke selvstændig, men lønmodtager med ledelsesansvar.

Freelance-arbejdere skal placeres som selvstændige (med arbejdsplads hjemme) eller lønmodtagere i fx det band, de er ansat i (arbejdsstedet er øvelokalet eller der hvor bandet kontaktes). De skal ikke placeres, hvor de udfører arbejdet (musikere fx på forskellige spillesteder).
Selv om nogle freelancere ikke er momsregistrerede, skal de kodes som selvstændige, hvis de selv opfatter sig som det.
Hvis de fx har øvet eller været til møder, tæller det også som arbejdstid/forberedelsestid og dermed beskæftigelse i referenceugen.

Dette spørgsmål stilles lønmodtagere og forsøge at afgøre hvor fleksible arbejdstider folk har.
Det er respondentens egne specifikke vilkår der spørges ind til og ikke til de generelle vilkår på arbejdspladsen

☐ I decide entirely on my own
☐ I mainly decide on my own, but within the framework of a working time arrangement
☐ It is entirely my employer's decision.

Only answer this question if B2Status Contains Any 2 Selvstændig and beskaeftiget Contains Any 1 Ja

B2Ansat Do you have employees in your business apart from any help from family members?

Dette spørgsmål stilles kun til selvstændige.
Formålet med spørgsmålet er at få klarlagt, om hvorvidt IP har ansatte i sin virksomhed eller om IP er en enkeltmands-virksomhed. Medhjælpende ægtefæller og ulønnede familiemedhjælpere medregnes nemlig ikke som ansatte.
Derfor er det vigtigt at få identificeret, om det kun er medhjælpende ægtefælle/ulønnede familiemedlemmer, der arbejder i IP's virksomhed.

Arbtid

We would like your assessment of whether you work full-time or part-time at your main job. If you have shift work or flexitime, base your assessment on the average number of hours you have worked in the last month.

If you have a flex-job please be aware that your answer should be based on the number of hours you actually work and not the number of hours you are actually paid for.

Only answer this question if beskaeftiget Contains Any 1 Ja

B4HelDel Do you work:

Her markeres, hvad IP selv mener, at han/hun er ansat som i sit hovedjob.

Hvis IP har skiftende arbejdstider, skal IP basere sin vurdering på det antal timer, som IP i gennemsnit har arbejdet den seneste måned.

Det skal bemærkes, at vi senere i spørgeskemaet har indsat et kontrolmodul, der popper op, hvis der er uoverensstemmelse mellem IP's oplysninger om fuldtids- eller deltidsbeskæftigelse og IP's normale ugentlige arbejdstimer. Kontrolmodulet aktiveres, hvis IP har oplyst, at han/hun
• arbejder på fuldtid, men har færre end 32 normale arbejdstimer om ugen
• arbejder på deltid, men har mindst 32 normale arbejdstimer om ugen

Det skal dog understreges, at det er legitimt for IP at svare fuldtid og deltid uagtet, at vedkommende bryder med 32-timers reglen. Det får dog som konsekvens, at man skal bekræfte eller afkræfte dette i et kontrolmodul efter den normale arbejdstid.

Hver opmærksom på at Flexjobber på fuld løn (gl. ordning) betyder ikke fuldtidsarbejde. Hvad er IP ansat til (fuldtid/deltid) i deres flexjobs kontrakt.

I disse spørgsmål ønsker vi at få oplyst IP's normale ugentlige arbejdstid. Hvis IP's aftalte arbejdstid (der fremgår af kontrakten) er 37 timer, men IP arbejder normalt 45 timer, så er det 45 timer, der skal registreres som IP's normale ugentlige arbejdstid.

SPISEPAUSER Do the {{normtid_hovedjob}} hours contain a paid main meal break?

Vi er interesserede i, om det er en formel del af ansættelsen, at arbejdsgiveren betaler frokost¬pauserne. Hvorvidt medarbejderen faktisk holder spisepausen er i denne henseende ligegyldigt.

☐ Include paid lunch breaks
☐ Exclude paid lunch breaks

FAKARBTID How many hours did you actually work in the week from {{refugetxtlang}}?
{{hjtxt_spisepauser_en}}
(Hours are specified {{hjtxt_spisepauser}} meal breaks)

Dette spørgsmål handler om, hvor meget IP har arbejdet i en konkret referenceuge. Dvs. det er KUN arbejde i denne uge, der skal angives.

Derfor er det også vigtigt, at IP er opmærksom på faktorer, der kan gøre, at arbejdstiden i den faktiske uge varierer fra det aftalte/normale timeantal fx:
- overarbejde
- ferie
- sygefravær
- skiftende arbejdstid pga. flekstid, afspadsering m.m.
- IP gik tidligt fra arbejde/kom senere på arbejde pga. private ærinder

Husk også at medregne eventuelt hjemmearbejde.

Husk at fratrække helligedage

B9Hjem Have you worked from home in the last month?
(Include all homework, even if it was just one hour)
TEKST TIL SELVSTÆNDIGE: B2STATUS=2
Work carried out in separate business premises within the dwelling (e.g. a clinic, workshop, stable, or on fields) is not considered work performed at home.

Hjemmearbejde er alt produktivt arbejde i relation til arbejdspladsen, som er udført på hjemmeadressen.

Det er dog vigtigt at understrege, at personer, der har deres arbejdsplads i forlængelse af hjemmet ikke arbejder hjemme. Det gælder fx:
• En landmand, der går over i stalde og tilstødende bygninger
• En selvstændig, der går over på sit kontor i nabobygningen
• En kioskindehaver, der bor oven på sin kiosk
Afgørende er, om hjemmet og arbejdsstedet har samme indgang. Er det ikke tilfældet, arbejder man ikke hjemme.

En gruppe, der også regnes med som hjemmearbejdende, er sælgere, der forbereder sig hjemmefra, men møder klienter og kunder på deres adresse.

Husk at de timer, der arbejdes hjemme, skal tælles med i folks arbejdstid.

B9Skift Do you normally work shifts, or do you have duties where your working hours rotate between day, evening, or night shifts?

Ved skiftehold forstås: IP, der pga. skiftehold, arbejder på forskellige tidspunkter af døgnet i løbet af en periode. Fx arbejder IP mandag og tirsdag på daghold 07-15, onsdag og torsdag på aftenhold 15-23 og fredag 23-07 på natholdet.

Hvis IP fast arbejder på samme skift (fx altid morgenholdet), er der ikke tale om skifteholdsarbejde, og der skal derfor svares 'Nej' i dette spørgsmål.

Hvis IP derimod skifter mellem morgen, aften- og natarbejde, skal der svares ja.

B2Midlt Are you employed on a temporary or a permanent basis? (Temporary means that you have a fixed-term contract for a limited period)

Ansættelsen er kun midlertidig, hvis IP udtrykkeligt er ansat for en bestemt periode med en fast slutdato eller indtil en bestemt opgave er løst (fx projektansatte). Det drejer sig typisk om følgende:

• Lærlinge og elever som er ansat på lærlinge/elev-kontrakt med fast slutdato
• Lønnede praktikanter
• Personer ansat i vikariater, fx barselsvikariat
• Projektansatte, hvor ansættelsen stopper, når projektet er udført
• Ph.d.-ansatte, forskningsassistenter og videnskabelige assistenter, der er ansat med fast slutdato
• Håndværkere, arbejdsmænd der kun er ansat til et bestemt byggeri
• Konstabler i forsvaret
• Åremålsansættelse
• Ledige, der er midlertidigt ansat i forskellige beskæftigelsesordninger fx løntilskud
• Vikarer, der udlejes af vikarbureauer er også midlertidigt ansatte
• Sæsonarbejdere

3 mdr. prøve i forbindelse med opstart på nyt arbejde, er ikke en midlertidig ansættelse. Man er fastansat selv om man ved eller frygter, at man bliver sagt op. Hvis IP sidder i opsagt stilling, gør dette ikke ansættelsen midlertidig.

Studerende med job, som de kun regner med at have så længe, de læser, er ikke i midlertidigt job, medmindre det fremgår af ansættelseskontrakten.

B2STAAR In which year did you start working in your current job?

Meget vigtigt at vi får svar på, hvilket årstal IP begyndte på sin nuværende arbejdsplads.

Hvis et firma er blevet opkøbt af et andet, og IP stadig har det samme ansættelsesforhold, skal IP svare på, hvornår IP startede i det oprin¬delige firma, også selvom IP har fået en anden arbejdsfunktion (stilling) i firmaet.

Det samme gør sig gældende, hvis firmaet er flyttet til en anden adresse end den oprindelige, også hvis afdelingen flytter til udlandet og IP flytter med.

We will now ask you a series of questions about your workplace – regardless of whether you are an employee, a temporary worker, or self employed. The information is used to place your work in the correct industry and is not shared with others.
If you work through a temporary work agency, please refer to the place where you actually worked during the specified week – not the agency itself.

Ekstra tekst til selvstændige: If you are self employed, you should interpret 'workplace' in the following questions as your own business or the place where you carried out your work.

B2ARBKOM In which municipality is your workplace located? (If your workplace is not located in Denmark, click 'unknown').

Arbejdsstedets kommune er den kommune, hvor IP´s lokale arbejdsplads ligger – altså hvor IP møder og får sine instruktioner.

Hvis IP har flere arbejdssteder (fx udekørende hjemmepleje), så skal der vælges den kommune, hvor arbejdsstedet, der organiserer og koordinerer, ligger. Dette betyder IKKE at alle kommunalt ansatte, er ansatte på rådhuset.

Det eneste tilfælde der afviger herfra er vikarer, der er ansat via et vikarbureau. Her skal de vælge den kommune, hvor det arbejdssted, som de arbejder hos, er lokaliseret - ikke selve vikarbureauets hjemkommune. Hvis de arbejder flere steder i ref.ugen, vælg da den kommune, hvor det arbejdssted de arbejder flest timer hos, er placeret.

B2Gade Write down the address of your workplace

Dette spørgsmål stilles kun til de IP'ere, der arbejder i Danmark.

Adressen for IP's arbejdssted:

• Hvis IP har flere arbejdssteder (fx udekørende hjemmepleje), så skal der vælges det arbejdssted, hvor arbejdet organiseres og koordineres.
• Det eneste tilfælde der afviger herfra er vikarer, der er ansat via et vikarbureau. Her skal de vælge det arbejdssted de arbejder hos, ikke selve vikarbureauets kontor. Hvis de arbejder flere steder i ref.ugen, vælg da det arbejdssted med flest timer.
• Hvis IP er dagplejer/familieplejer, skal vi have hjemmeadressen.
• Hvis man er kommunalt ansat er ens arbejdssted IKKE rådhuset, med mindre man arbejder på selve rådhuset!

Uddybende eksempler:

Type 1: Personer, der arbejder helt eller delvis i deres hjem.
Eksempler: Assurandører, sælgere (dog kun såfremt de arbejder ud fra deres hjemmeadresse)
- dagplejemødre, familieplejere.

IP's hjem udgør her arbejdsstedet og omfatter således kun en person.

Type 2: Personer, der aldrig kommer på hovedkontoret, men ikke arbejder ikke i deres hjem. IP arbejder ofte ikke et fast sted.

Eksempler: Rengøringsassistenter i rengøringsfirmaer, avisbude (er de ansat af avisen, bliver de en del af denne og får avis som branche)
SFI's interviewere, Meteorologisk instituts observatører, tilsynsførende (fængselsvæsenet), lods- og fyrtjenesten

Dette er et eksempel på, at vi skal have adressen på det sted, der koordinerer og organiserer arbejdet.
Fx ISS kontoret, der organiserer udekørende rengøringspersonale- her er det ikke de steder hvor der gøres rent.

Type 3: Personer, der er kommunalt ansatte men ikke på rådhuset.

Eksempler: Hjemmehjælper, sundhedsplejerske, hjemmesygeplejerske, kommunalarbejder, arbejdsmand, gartner.

I nogle tilfælde har de et lokalkontor, de er tilknyttet fx et hjemmehjælps kontor eller en materialegård. Hvis de siger, at de er tilknyttet rådhuset, få så gerne uddybet, hvad de laver på rådhuset.

Type 4: I nogle tilfælde eksisterer arbejdsstedet fysisk kun midlertidigt eller er meget mobilt.

Eksempler: bygge- og anlægsarbejdere, langturschauffører, fiskere, tivoliansatte

Få så vidt muligt oplysning om antallet af ansatte på det lokale arbejdssted - en byggeplads, en kutter, et tivoli osv.

B2Hvad What type of business do you work for?(Be specific: write fish factory instead of just factory, write pharmaceuticals company rather than industrial company, write women's clothes shop rather than just shop)

Det I skriver her, er det vi vil kode ud fra, så det skal være et ord, der siger, hvad virksomheden laver, se nedenstående eksempler.

Her er det den detaljerede branche, der er interessant, derfor må nedenstående eksempler ikke forekomme.

- Ikke maskinfabrik, men landbrugsmaskinfabrik
- Ikke detailhandel, men supermarked, dametøj, herretøj, børnetøj
- Ikke kommune, men kommunekontor eller børnehave, folkeskole, vandværk, plejehjem
- Ikke staten, men ministerium, politiet, byretten, rigsarkivet, universitetet osv.
- Ikke vognmand, men taxivognmand, fragtvognmand osv.
- Ikke konsulentvirksomhed, men rådgivende ingeniør, edb-konsulent osv.

Vær meget omhyggelig med at få en præcis virksomhedsangivelse

BEMÆRK: Vikarer skal placeres i den virksomhed, de er sendt ud til og ikke i vikarbureauet. De eneste, der skal have vikarbureauet som virksomhed er dem, der faktisk er ansat i vikarbureauet og fx administrerer løn el. lign. for de vikarer, der er sendt ud.

Passer eget handicappet barn
Hvis en person går hjemme og passer sit handicappede barn på fx tabt arbejdsfortjeneste fra kommunen, skal personen placeres som beskæftiget, stilling er Handicaphjælper og virksomheden er Kommunal Hjemmehjælp.

Hjælpetekst til at kode IP's virksomhed.
Her skal der suppleres med oplysninger om, hvilke slags ydelser eller varer, der arbejdes med på den lokale arbejdsplads, og om der produceres eller kun forhandles, fx:

- Fremstilling af el-vandvarmere og – radiatorer
- Fremstilling af træmøbler eller plastmøbler
- Engroshandel med frugt og grøntsager
- Forhandling og reparation af biler

B2Stil What is your position/job title?

Der må ikke bruges forkortelser i stillingsbetegnelsen.

Hvis IP fx svarer arbejdsmand, specialarbejder, fabriksarbejder, skal der spørges om IP's arbejdsfunktion. Hvis svaret er konsulent, skal der spørges, hvilken slags konsulent der er tale om: Er det it-konsulent, virksomhedskonsulent eller noget helt andet? Det samme gælder for en lærer. Her skal vi have oplyst, om det er folkeskolelærer/aftenskolelærer/seminarielærer/universitetslærer.

Vikar, blæksprutte eller afløser er ikke en præcis nok titel/stillingsbetegnelse.

B2StilA Please, describe the main tasks of your job(For example, answer the phone, input forms, telephone sales, paint walls. Perhaps state what the work involves)

Dette er en hjælpetekst til beskrivelse af IP's arbejdsfunktioner, der skal bruges i kodningen ved tvivlssituationer. Husk altid at spørge ind til IP's arbejdsfunktioner.

Tænk over hvad du skriver, det er ikke nok at skrive fx ledelse eller administration. Vi vil gerne have en så konkret beskrivelse af IP's primære daglige arbejdsopgaver som muligt. Fx om IP besvarer telefonopkald, gør rent, laver frokost i køkken osv.

Only answer this question if B2Status Contains Any 1 Lønmodtager and (beskaeftiget Contains Any 1 Ja) And (B2SKIFT Contains None of 2 Nej) And (maininterviewee Equal to 1)

B2persled Do your responsibilities in your job include personnel management?

Personaleledelse indbefatter, at IP har beslutningskompetence over andre medarbejdere i forhold til deres arbejdsopgaver, samt at IP kan træffe beslutninger om, hvorvidt der skal ansættes eller afskediges personale.

Der skal være tale om formel ledelse. Det skal ikke tages med, hvis man fx tages med på råd af chefen eller er med til at planlægge arbejdet. Derudover skal det være personaleledelse. Fagligt eller økonomisk ansvar har ikke nødvendigvis noget med personaleledelse at gøre.

Hvis IP kun har ansvar for lærlinge/elever, herunder sidemandsoplæring, betragtes dette ikke som personaleledelse.

Tidligere analyser har vist, at der er en tendens til at overvurdere personaleledelse. Der er mange, der af deres chef involveres i organiseringen af arbejdet og dermed har indflydelse på deres kollegers arbejdsliv. Det er dog kun personer med egentligt ledelsesansvar, der skal tages med i dette spørgsmål.
Hvis I er i tvivl om, hvorvidt IP har personaleledelse, kan I eventuelt spørge ind til, om det er IP, der beslutter, hvem der skal ansættes eller afskediges, holder medarbejderudviklingssamtaler.

The next few questions are about your parents' background. This information is used, among other things, to analyse labour market integration and to better understand labour market dynamics for the population as a whole.

We use information from administrative registers whenever it is already available and therefore only ask about information that is missing. As a result, you may find that we only ask about one of your parents.

cobfath In which country was your father born?

Hvis IP har mere end én far (eksempelvis en biologisk- og en adoptivfar) skal man svare ud fra den far som har spillet den største rolle i ens opvækst. Hvis begge har spillet lige stor/lille rolle skal man svare ud fra den som har haft rollen som værge/forældremyndighed.

Hvis IP har to forældre af samme køn så bruges fars/mors fødselsland alligevel og man svarer for hver forælder. Altså hvis en respondent har to mødre og ingen far så svarer man for den ene mor ved mors fødselsland og for den anden ved fars fødselsland

Hvis man ikke kender sin far / sin fars fødselsland kan man springe spørgsmålet over.

Hvis faderen er født i ét land mens hans forældre eksempelvis var på ferie kan man også spørge ”i hvilket land havde din fars forældre bopæl da han blev født”.
