Connection to Researcher servers at DST – Mac users

This guide describes how to connect to our Researcher servers at Statistics Denmark – for Mac users, via https://remote.dst.dk

Before connecting you need to install "Microsoft Remote Desktop" from the App Store.

- Go to the App Store and search for "Microsoft Remote Desktop"
- Select the application and install

Connection to Researcher servers

You are now ready to connect to a Researcher server.

- Start Safari (Firefox or Chrome is also supported, however, with slightly changed dialogues/windows)
- Enter the address <u>https://remote.dst.dk</u>

The following image appears in the browser:

	remote.dst.dk
(5)	
Danmarks Statistiks Remote Gateway	
Username zxyc	
Password ?~ Logon	

- Enter your Researcher username (3 or 4 characters) under Username
- Enter your 4-digit PIN code under Password
- Then click *Logon*

After that, the following appears:

	≘ rer	note.dst.dk	Ċ	• • • +
6 5				
Enter your one-time password.				
Logon				

After a few seconds, you will receive an SMS with a one-time password

- Enter your *one-time password*
- Then click *Logon*

If you are equipped with a token, you do not receive an SMS. Instead, you have to enter the 8-digit number, which your Entrust token shows as your *one-time password*.

The number will appear after a few seconds when you hold down the "BUTTON" on your token.

The following image will appear in the browser:

(Note that the number of icons you have, depends on which rights you have)

• Click the server you want to connect to

• Click Allow (Tillad)

• Enter the username and password for your Mac

Now you are connecting to your server at Statistics Denmark.

Then your *Desktop* appears, and you can now operate your server.

After you finish your work on the server, you must log out.

Afterwards, click Logout at the top left corner of the Browser:
