## Einleitung.

Das gegenwärtige Heft statistischer Nachrichten über die Waaren-Ein-, Aus- und Durchfuhr, die Handelsflotte, die Schifffahrt der Herzogthümer Schleswig-Holstein, den Canal-Verkehr u. s. m. für das Jahr 1848, schließt sich dem seither von der dazu ernannten Commission in Kopenhagen jährlich, und zwar zuletzt für das Jahr 1847 herausgegebenen Tabellenwerk an. Die Form und Ausarbeitung der Tabellen ist sich im Wesentlichen gleich geblieben, nur rücksichtlich des Verkehrs mit dem Königreiche Dänemark und den Inseln Alsen und Nerroe ist eine durch die Zeitumstände und die Zollverhältnisse gebotene Veränderung eingetreten. Da nemlich durch die Verfügung der provisorischen Regierung vom 22. Septbr. 1848 bestimmt worden, daß Dänemark hinsichtlich der Ein- und Ausfuhr von Waaren bisweiter als Ausland anzusehen und zu behandeln ist, so sind die nach jenem Zeitpunkte von dort ein- und dahin ausgeführten Waaren in die allgemeinen Tabellen über die Ein- und Ausfuhr aufgenommen, während in den früheren Heften der Verkehr der Herzogthümer mit dem Königreiche, als Binnenverkehr, in einer besonderen Nachricht sich zusammengestellt findet. Ueber diesen vor Erlaß der gedachten Verfügung stattgehabten Verkehr findet sich dagegen auf Seite 91 wie früher eine specielle Nachricht, welche demnach, um das Resultat des Gesamt-Verkehrs mit Dänemark zu erfahren, durch die vorhergehenden Tabellen zu ergänzen sein wird. Ferner sind die von den Inseln Alsen und Nerroe gegen Erlegung des Ein- und Ausfuhrzolles ein- und dahin ausgeführten Waaren in die Tabellen über Ein- und Ausfuhr unter der Rubrike „Dänemark“ aufgenommen, während dieselben früher, als zum Binnenverkehr gehörend, nicht in Betracht gezogen worden sind.

Zur besseren Verständigung der verschiedenen Tabellen wird Folgendes bemerkt:

Die Tabelle über die Einfuhr enthält in der Rubrike „Gesamt-Einfuhr“ alle eingeführten Waaren, ohne Rücksicht darauf, ob dieselben gleich verzollt oder auf die Auflagen genommen worden, jedoch mit Ausschluß der als solche ausdrücklich declarirten Transitgüter. In die Rubrike „Zum Consum clarirt“ (welcher Ausdruck, obgleich nicht ganz zutreffend, der Gleichmäßigkeit wegen beibehalten ist) sind die mit dem Einfuhrzoll berichtigten so wie alle zollfreien Waaren aufgenommen und für erstere der tarifmäßige — nicht der wirklich erlegte — Zoll nebst Gebühren berechnet. Das Gewicht der Waaren ist wie auch in den übrigen Tabellen, um eine Vergleichung mit früheren Jahren möglich zu machen, das Dänische. Die von Altona und Wandsbeck unter Zollermäßigung eingeführten dortigen Fabrik- und Handwerkerwaaren sind in dieser Tabelle nicht berücksichtigt, finden sich aber auf Seite 89 aufgeführt.

Die Tabelle über die Ausfuhr enthält sämtliche ausgeführte fremde unberichtigte (jedoch wiederum mit Ausschluß der Transitgüter), verzollte und inländische Waaren nach Orten außerhalb der Zolllinie, unter Hinzufügung des tarifmäßigen Ausfuhrzolles für die pflichtigen Artikel.

Zur Erklärung der Nachricht über den Verkehr mit Dänemark wird die Ueberschrift der Rubriken, mit Berücksichtigung der vorangeführten Bemerkungen, genügen.

Behufs einer Vergleichung des Verkehrs im Jahre 1848 mit dem des vorhergehenden und künftiger Jahre ist die Berechnung des am Schlusse der verschiedenen Tabellen angegebenen Werths der ein- und ausgeführten Waaren nach den im Tabellenwerk für das Jahr 1847 angenommenen sogenannten „officiellen Werthansätzen“ geschehen. Diese Werthansätze können indessen, wie solches auch in der Natur der Sache liegt, im Einzelnen auf Genauigkeit keineswegs einen Anspruch haben. Dieselben sind, wie aus der Einleitung des gedachten Tabellenwerks ersichtlich, was die Waaren-Einfuhr betrifft, nach den Preisen hier im Lande ohne Hinzurechnung des Zolles, jedoch mit Einschluß der Fracht, Assurance und anderer ähnlicher Unkosten berechnet. Bei Waaren, hinsichtlich deren eine große Preisverschiedenheit obwaltet, ist bei Bestimmung des Durchschnittswerths besonders auf die Sorten Rücksicht genommen, welche vornemlich auf unseren Markt kommen. Für die Ausfuhr ist der Werth nach den Mittelpreisen an den wichtigsten Ausfuhrplätzen, ohne Zoll und Kosten bei der Ausfuhr, angesetzt. Ferner heißt es in dieser Beziehung in der erwähnten Einleitung: „Es kann daher nach dem solchermaßen angedeuteten Character der officiellen Werthansätze nicht behauptet werden, daß dieselben den wirklichen Werth der in einem Jahre umgesetzten Waaren angeben. Der eigentliche Zweck dieser officiellen Werthangabe ist aber auch der, eine feste und unveränderte Basis zur Vergleichung der Resultate eines Jahres mit denen eines andern oder eines längeren Zeitraumes zu erhalten, wonach die relative Zu- oder Abnahme des Verkehrs beurtheilt werden kann. Um die Vergleichung von Jahr zu Jahr nicht zu erschweren, werden daher keine Veränderungen in den officiellen Werthtabellen vorgenommen werden; falls sich indessen bedeutende Mißverhältnisse zeigen sollten, wodurch die Uebersicht zu unrichtig werden würde, und diese nicht in einer durch augenblickliche Conjunctionen bewirkten Preisveränderung bestehen, sondern auf einem thatsächlichen Umschwung der Production und des Verbrauchs beruhen, dürfte es vorzuziehen sein, bei der periodischen Revision der Tabellen die Abweichung durch Procente anzugeben, oder, wie es in England geschieht, den declarirten Handelswerth hinzuzufügen, anstatt

die einmal fixirten Ansätze zu verändern. Der Tarif für die officiellen Werthanfänge in England besteht, so weit uns bekannt, seit dem Jahre 1694 unverändert, ungeachtet derselbe für die englischen Exportartikel viel zu hoch (bis 40—50 pCt.), für den Import fast zu niedrig ist. Den französischen Werthtarif, welcher 1826 revidirt wurde, hält man circa 25 pCt. zu hoch.“

Der nun in Uebereinstimmung mit den hier ausgesprochenen Grundsätzen ermittelte Gesamtwertb der in den aus den Herzogthümern Schleswig-Holstein und dem Fürstenthum Lübeck bestehenden Zollverein eingeführten Waaren hat betragen:

	im Jahre 1847.	1848.
von der Fremde und dieser gleich zu achtenden Orten...	18600000 Rbthlr.	14680319 Rbthlr.
von Dänemark *)	3200000 "	137982 "
Zusammen..	21800000 Rbthlr.	14818301 Rbthlr.

weniger in 1848: circa 7 Millionen Rbthlr. oder circa 32 Procent.

Es ist indessen hierbei zu berücksichtigen, daß erstens die Einfuhr nach den Inseln Alsen und Nerroe, welche zu circa 500000 Rbthlr. angeschlagen werden kann, in der Summe für 1848 nicht mit enthalten ist und zweitens das Jahr 1847 der bedeutenden außergewöhnlichen Korneinfuhr wegen, in dieser Beziehung ein ungewöhnliches genannt werden muß. Es wird sich daher rechtfertigen lassen, vor einer Vergleichung der beiden Jahre diese nicht unwesentlichen Umstände in Betracht zu ziehen. Die Einfuhr unvermahlener und vermahlener Kornwaaren betrug nämlich:

1847 von der Fremde	285054 Tonnen,	von Dänemark**)	266589 Tonnen,	zusammen	551643 Tonnen,
1848 " " "	130968 " " "	" " "	51849 " " "	" " "	182817 " "
Wird dieser Unterschied von 368826 Tonnen zu einem Werthe von 2000000 Rbthlr.					
die Einfuhr Alsens und Nerroes zu .....					
angenommen und die Summe von .....					
2½ Millionen Rbthlr.					

von der Einfuhr des Jahres 1847 abgezogen, so bleibt für 1848 nur noch ein Minus von 4½ Millionen Rbthlrn. oder 20 Procent.

Der Gesamtwertb der zum Consum clarirten (d. h. der mit dem Einfuhrzoll berichtigten und der eingeführten zollfreien) Waaren

	im Jahre 1847.	1848.
hat betragen.....	17900000 Rbthlr.	14549071 Rbthlr.
so wie der von Dänemark eingeführten fremden berichtigten und inländischen Waaren.....	3100000 "	136496 "
Zusammen..	21000000 Rbthlr.	14685567 Rbthlr.

weniger in 1848 = 6300000 Rbthlr.

wovon indessen wie bei der Gesamteinfuhr 2½ Millionen Rbthlr. in Abzug zu bringen sind, so daß sich für diese Rubrike nur ein Minus von 3800000 Rbthlrn. mithin ein um 700000 Rbthlr. günstigeres Resultat als für die Gesamteinfuhr herausstellt, welches darauf beruhen dürfte, daß die Handelnden es mit Rücksicht auf die Verhältnisse vorgezogen haben werden, ihre Vorräthe nur im Verhältniß zum augenblicklichen Bedarf zu completiren. Dafür, daß der Verbrauch der wichtigeren Consumtibilien nicht erheblich abgenommen hat, spricht die nachfolgende Uebersicht des Verbrauchs einiger Artikel pr. Kopf der Bevölkerung. Es ist bei dieser Berechnung, welche sich auf eine so weit möglich, genaue Ermittlung der zum Consum im Lande verbliebenen Waaren gründet, die Volkszählung vom Jahre 1845, welche 826938 zollpflichtige Einwohner ergiebt, zum Grunde gelegt:

	Durchschnitt der Jahre 1845 und 1846.		1848.	
	Verbrauch pr. Kopf.	Vertheilung der Zollabgaben pr. Kopf	Verbrauch pr. Kopf.	Vertheilung der Zollabgaben pr. Kopf.
Caffee.....	6.88 R	4.56 R Cour.	8.02 R	5.32 R Cour.
Thee.....	0.24 "	0.79 " "	0.23 "	0.77 " "
Zucker, raffinirter*** ).....	6.71 "	5.18 " "	6.49 "	5.57 " "
Sirup.....	6.17 "	3.70 " "	6.94 "	4.20 " "
Reis.....	1.50 "	0.75 " "	2.08 "	1.15 " "
Rosinen und Corinthen.....	1.12 "	0.41 " "	1.25 "	0.46 " "
Pflaumen.....	0.99 "	0.25 " "	1.14 "	0.28 " "
Taback, fabricirter.....	3.95 "	2.18 " "	3.92 "	2.18 " "
Wein.....	2.18 Pott	2.48 " "	2.10 Pott	2.40 " "
Salz, raffinirtes.....	13.05 R	1.43 " "	12.96 R	1.28 " "

\*) Ueber den Werth des Verkehrs mit Dänemark im Jahre 1847 liegen keine Aufgaben vor. Die oben angegebene Summe beruht daher auf einer Schätzung nach dem Umfange dieses Verkehrs in dem Jahre 1846.

\*\*) Da der größte Theil der Korneinfuhr von Dänemark als Transitgut wieder ausgeführt wird, dürfte diese hier auch abzuziehen sein.

\*\*\*)) Da der bei weitem größte Theil Zucker in raffinirtem Zustande consumirt wird, ist der sämmtliche im Lande verbliebene Rohzucker auf raffinirten Zucker und Sirup reducirt worden und zwar nach dem Verhältniß von 100 R rohem St. Croix Zucker = 66 R raff. Zucker und 34 R Sirup und 100 R anderem rohen Zucker = 70 R raff. Zucker u. 30 R Sirup, in Folge dessen sich nach Abzug des ausgeführten im Lande raffinirten Zuckers und Sirups und mit Hinzulegung des eingeführten Fabricats obiges Resultat herausgestellt hat. Wird dagegen sämmtlicher Zucker, roher und raffinirt (ohne Vornahme einer Reduction) zusammengeworfen und nur der eingeführte Sirup in Betracht gezogen, so ergiebt sich für den Durchschnitt der Jahre 1845—1846 ein Verbrauch von 10.01 R Zucker und 2.57 R Sirup, für 1848 dagegen ein solcher von 9.30 R Zucker und 4.13 R Sirup. Aehnlich wie hinsichtlich des Zuckers, ist es mit der Ermittlung des Verbrauchs von Reis, Taback und Salz verhalten. Für ersteren ist das Verhältniß von 100 R Paddy = 62½ R Reis und für letzteres das von 1000 R Steinsalz = 900 R raffinirtem Salz in Anwendung gebracht worden. Der rohe Taback liefert ungefähr ein demselben gleiches Quantum fabricirten Taback.

Als Hauptursache der Minder-Einfuhr im Jahre 1848 dürfte vielmehr der Umstand anzusehen sein, daß der Absatz fremder verzollter Waaren nach Dänemark, welcher bisher jährlich einen Werth von circa 600,000 Rbthlr. hatte, bedeutend abgenommen und die gleichfalls bedeutend verminderte Ausfuhr von Landesfabrikaten dorthin eine Abnahme in der Einfuhr mancher Roh-Materialien veranlaßt hat.

Die nachstehende Uebersicht zeigt die im Ganzen (von der Fremde und von Dänemark) eingeführten und die zum Consum clarirten Quantitäten einiger hauptsächlichster Artikel:

Der Gesamtwertb der Ausfuhr hat betragen:

	im Jahre 1847.	1848.
nach der Fremde (Seite 87) .....	18300000 Rbthlr.	14843237 Rbthlr.
nach Dänemark (Seite 95) .....	3800000 „	703073 „
Zusammen ..	22100000 Rbthlr.	15546310 Rbthlr.
weniger in 1848 =	6500000 Rbthlr.	
nach Abzug der Ausfuhr von Alsen und Herroe von circa	300000 „	
	6200000 Rbthlr. oder circa 28 Procent.	

Dieses Minus wird hauptsächlich der verminderten Durchfuhr dänischer Producte durch die Herzogthümer nach Hamburg-Altona, welche seither der Ausfuhr Holsteins zugerechnet worden, so wie theilweise dem, durch das Militair veranlaßten größeren Consum in den Herzogthümern selbst, zuzuschreiben und dann ferner durch die Abnahme der Ausfuhr nach Dänemark und den Dänischen Colonien veranlaßt sein.

\*) Hierunter von Dänemark als „inländisch“ eingeführt in 1847: 750,428 ℥  
„ 1848: 35,371 „

Hauptgegenstände der Ausfuhr waren:

		1847.	1848.			1847.	1848.

Schaafe .....	Stück	21773	15667	bleiben als Ueberschuß der Ausfuhr ..	Tonnen	667432	647792
Schweine .....	—	15793	14416				
Seife, grüne und weiße .....	℥	840036	169471				

In den Jahren 1845 und 1846 betrug der Ueberschuß der Ausfuhr von Kornwaaren resp. 646771 und 656606 Tonnen, mithin unwesentlich mehr als im Jahre 1848. Kartoffeln wurden nach Abzug der Einfuhr in 1848 mehr als in 1847 ausgeführt: 26800 Tonnen, und Lein- und Rappsaat ebenso: 27210 Tonnen.

Dem Vorstehenden nach hat der Werth der im Jahre 1848 eingeführten Waaren betragen..... 14818301 Rthlr.  
und der der ausgeführten Waaren..... 15546310 „  
mithin der Gesamtwertb des Verkehrs der Herzogthümer Schleswig-Holstein und des Fürstenthums Lübeck mit dem Auslande. 30364611 Rthlr.  
im Jahre 1847 dagegen... 43900000 „  
weniger in 1848 circa 13½ Millionen Rthlr. oder 31 Procent.

Die Anzahl der den Schleswig-Holsteinischen Canal im Jahre 1848 passirten Schiffe ergibt gegen 1847 ein Minus von 2339 und gegen 1846 ebenfalls ein Minus von 2187 Schiffen, welches durch die Blokade verursacht worden und selbstfolglich eine eben so bedeutende Abnahme der Waaren-durchfuhr zur Folge gehabt hat.

In die Uebersicht der Handelsflotte sind die Inseln Alsen und Herroe mit den für 1847 aufgegebenen Zahlen der Vollständigkeit wegen mit aufgenommen. Es gehörten nach dieser Tabelle in den Herzogthümern am Schlusse des Jahres 1848 zu Hause: 2782 Fahrzeuge von 43210¼ Commerzlasten,  
im Jahre 1847..... 2684 „ „ 41514¼ „  
Vermehrung während des Jahres 1848: 98 Fahrzeuge von 1695¾ Commerzlasten.

Unter den im Jahre 1848 gebauten Schiffen waren 3 von 191½ Commerzlasten für Hamburger und 4 von 140¾ Commerzlasten für Dänische, die übrigen für inländische Rechnung.

Den Schifffahrtstabellen, welche in derselben speciellen Weise wie früher abgefaßt worden, ist sub XVIII. eine bisher vermiste Total-Uebersicht der Schifffahrt mit Angabe der verschiedenen Nationen, welche daran Theil genommen haben, hinzugefügt. Das Resultat dieser Zusammenstellung ist, daß während des Jahres 1848 mit Ausnahme der Dampfschiffe und derjenigen Fahrzeuge, welche im Vorbeifegeln gelöscht oder geladen haben:

22673 Fahrzeuge, trüchtig 166132¾ Lasten, beladen mit 93345¼ Lasten einclarirt  
und 22840 „ „ 167868½ „ „ 80485¾ „ ausclarirt  
im Ganzen also 45513 Fahrzeuge, trüchtig 334000¼ Lasten, beladen mit 173831 Lasten,  
im Jahre 1847 dagegen 69113 „ „ 546732½ „ „ 285290¼ „

1848 mithin 23600 Fahrzeuge, trüchtig 212732¼ Lasten beladen mit 111459¼ Lasten weniger ein- und ausclarirt sind. Diese Abnahme trifft hauptsächlich die inländische Fahrt und die Fahrt auf Dänemark, demnächst aber auch sehr erheblich die Schifffahrt auf alle fremden Ostseehäfen.

\*) Von den ausgeführten Lumpen gingen zollfrei nach Dänemark:

1847: 671,496 ℥

1848: 118,383 „

Aus der Tabelle XVII geht das Quantum aller seewärts ein- und ausgeführten Waaren nach den Commerzlasten, welche dieselben in den Fahrzeugen be-  
stauet haben, hervor, wornach im Jahre 1848 seewärts

63391  $\frac{1}{2}$  Commerzlasten weniger eingeführt und  
50726  $\frac{1}{2}$  " " " " ausgeführt sind,

als im Jahre 1847.

Die Waaren-Durchfuhr hat, abgesehen von dem Transit von und nach Rauenburg, betragen 1848: 218055278 A

1847 nur: 205722249 "

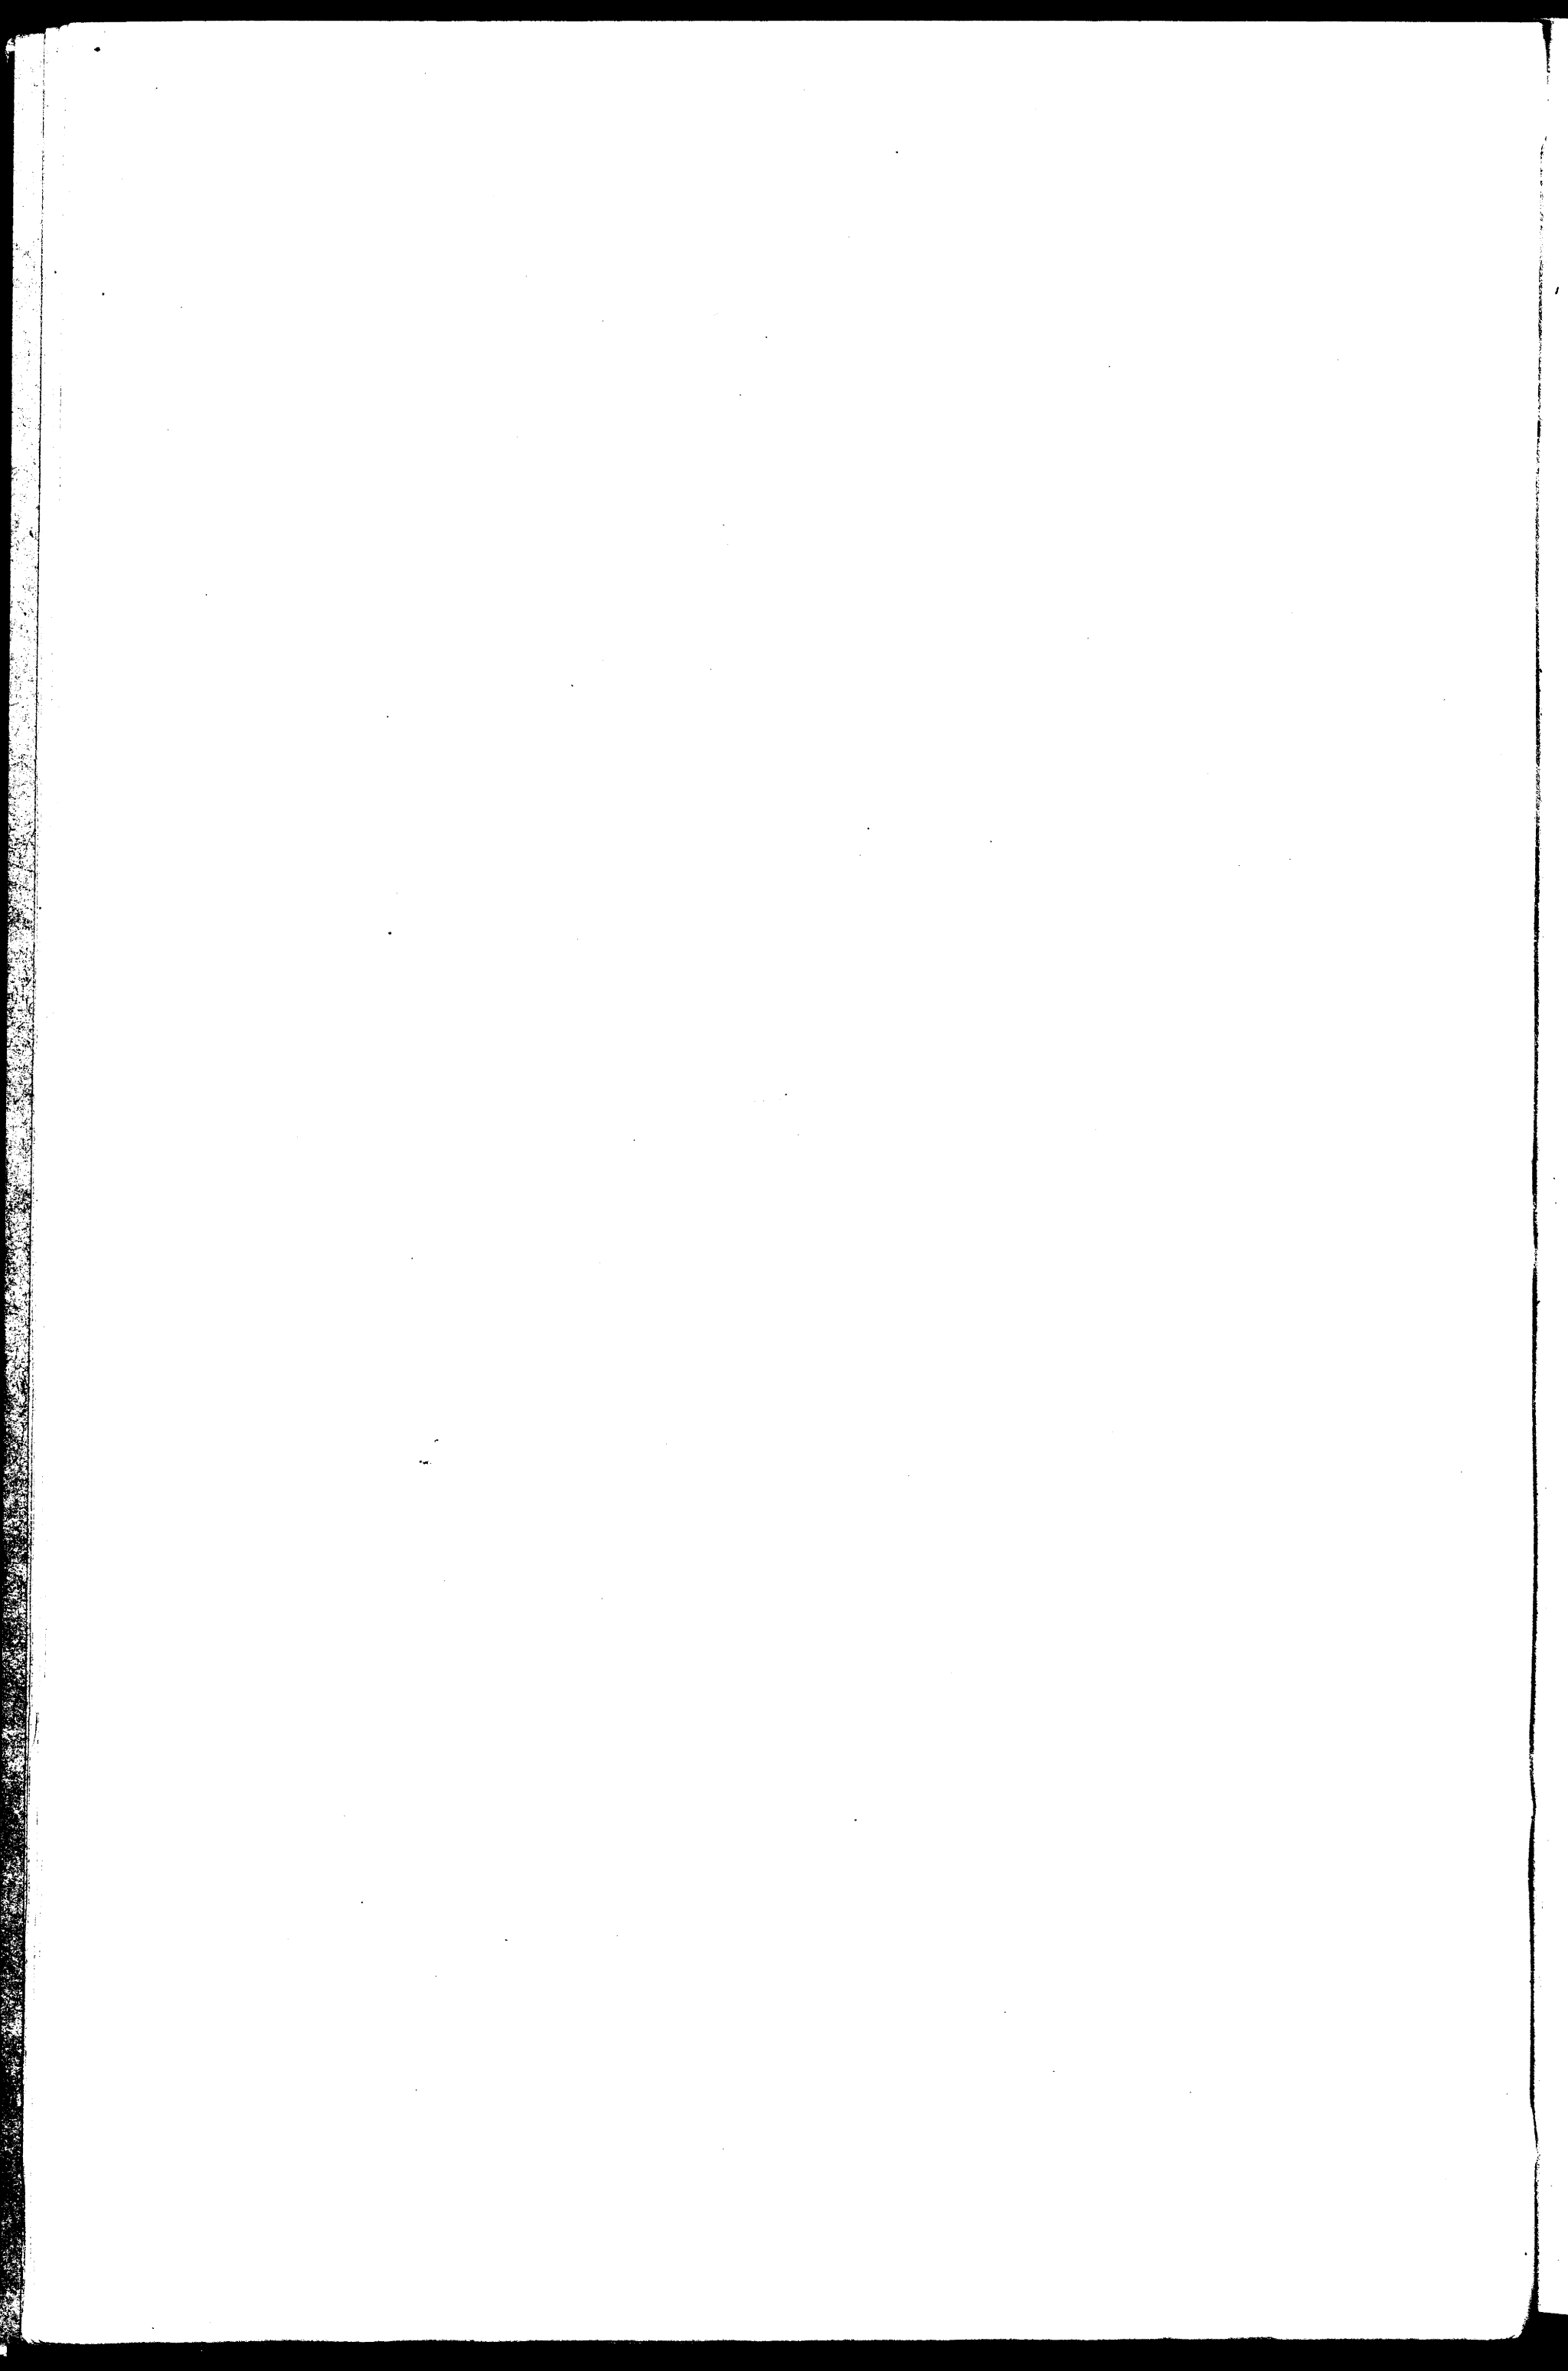

mehr in 1848: 12333029 A

Dieses Plus scheint hauptsächlich aus der Zunahme der Durchfuhr von und nach Preußen, welche allein circa 14 Millionen Pfund ausmachte, entstanden zu sein. In der Durchfuhr von und nach Mecklenburg zeigt sich ein Plus von circa 8 Millionen Pfund und in der von und nach Lübeck ein solches von circa 5 Millionen Pfund, der Transit über Kiel hat dagegen eine Abnahme von circa 15  $\frac{1}{2}$  Millionen Pfund erlitten. Es wird hier ferner zu dieser Tabelle bemerkt, daß der abgabenfreie Transit durch das Herzogthum Schleswig von und nach Dänemark im Jahre 1848, nicht zu ermitteln steht.

Die seither mitgetheilten speciellen Nachrichten über den directen transatlantischen Verkehr der Herzogthümer und insbesondere über den Handel Flensburgs mit den Dänisch-Westindischen Colonien sind, da diese Verkehrswege im Jahre 1848 von so geringer Bedeutung gewesen, in dem vorliegenden Hefte weggelassen. Es sind nemlich und zwar ausschließlich zu Flensburg nur einclarirt:

von Westindien 5 Schiffe von 459 Lasten	} vollbeladen
" Ostindien 1 " " 153 "	
und ausclarirt nach Westindien 5 " " 472 "	mit 451 Lasten Ladung.

Die ein- und ausgeführten Waaren, deren Werth resp. 281,874 und 137,166 Rthlr. betragen haben soll, sind aus den speciellen Tabellen über die Ein- und Ausfuhr zu ersehen.

# Warenaufuhr

der Herzogthümer Schleswig-Holstein

und

des Fürstenthums Lübeck

im Jahre 1848.

# Waaren-Einfuhr der Herzogthümer Schleswig-Holstein und des Fürstenthums Lübeck im Jahre 1848.

Werth der Gesamt-Ausfuhr . . . . 14,843,237 Rbthlr.

Anmerkung.

Nachstehende Quantitäten zollpflichtiger Landesproducte — welche übrigens in den betreffenden Rubriken der vorstehenden Tabelle mit dem für selbige bei der Ausmeldung erlegten Ausfuhrzoll enthalten sind — sind im Jahre 1848 bei der Fabrikcontrole in Altona zur dortigen Veredelung und Verarbeitung angemeldet worden, und ist daher für diese zufolge des § 8 des Patents vom 13. Decbr. 1843 der Ausfuhrzoll nebst Gebühren mit den beigelegten Summen zurückbezahlt.

		Zurückbezahlte Zollabgaben.

Aus den vorstehenden Uebersichten geht hervor, daß der Gesamt-Verkehr des Herzogthums Holstein im Jahre 1849 dem im Jahre 1848 ungefähr gleich geblieben ist, dagegen Ein- und Ausfuhr für sich betrachtet, erstere ein plus von 2,331,984  $\mathcal{R}$ , letztere aber wieder ein minus von 2,586,705  $\mathcal{R}$  ergeben. Eine Durchsicht und Vergleichung der obigen Haupt-, Ein- und Ausfuhrartikel bestätigt vollkommen dieses Resultat; bei allen Einfuhrartikeln, mit Ausnahme von Caffee, welcher wohl der enorm hohen Preise wegen weniger importirt wurde, zeigt sich eine mehr oder minder bedeutende Zunahme. Da diese einer Wiederbelebung des Verkehrs kaum wird zugeschrieben werden können, dürfte die Ursache derselben theilweise in dem durch die größere Menge des in Holstein concentrirten Militärs gesteigerten Consum und in der Einfuhr von Requisiten für die Marine und sonstige Militairzwecke zu suchen, auch aber wohl durch die Verzollungen für Rechnung Schleswiger Kaufleute entstanden sein. Die Minder-Ausfuhr fast aller Producte wird theilweise wiederum dem größeren Verbrauch des Militärs, besonders aber den mäßigen Kornpreisen und der schlechten Rappsaaterndte zugeschrieben werden müssen.

Die Schifffahrt, welche im Jahre 1849, wie 1848 den größten Theil der guten Jahreszeit über, durch die Blockade behindert ward, ist um ein Geringes bedeutender als im vorhergehenden Jahre gewesen und zwar hauptsächlich auf der Elbe, während dieselbe an der Mündung ziemlich unverändert blieb.

	1849	1848
Einclarirt wurden	17,017 Fahrzeuge, trüchtig 112,254 Lasten.	16,822 Fahrzeuge, trüchtig 107,481 Lasten.
Ausclarirt wurden	17,118 " " 114,011 "	16,979 " " 108,643 "
Zusammen	34,135 Fahrzeuge, trüchtig 226,265 Lasten.	33,801 Fahrzeuge, trüchtig 216,124 Lasten.
1849 also mehr: 334 Fahrzeuge von 10,141 Lasten.		

Unter den im Jahre 1849 clarirten Schiffen waren fremde:

eingehend	2,246 Fahrzeuge, trüchtig 22,752 Lasten.
und ausgehend	2,075 " " 22,273 "
Zusammen	4,321 Fahrzeuge, trüchtig 45,025 Lasten.

Zu Glückstadt liefen wegen Eisgangs oder Havarie 62 Schiffe ein, worunter 22 Seedampfschiffe von England und Holland und 3 Flußdampfschiffe. Das Gesamtgewicht der aus den eingelaufenen Schiffen gelöschten und nach Hamburg ausgeführten Waaren betrug, nach Abzug von 1584 Tonnen Steinkohlen und 168,586  $\mathcal{R}$  Gütern, welche im Lande verblieben, ..... 8,981,509  $\mathcal{R}$   
mit den wieder ausgegangenen Schiffen wurden außer 1,618,338  $\mathcal{R}$  Landesproducten an Transitgut verladen..... 3,282,686 "  
so daß sich der durch den Winterverkehr zu Glückstadt hervorgerufene Transit im Ganzen beläuft auf..... 12,264,195  $\mathcal{R}$

Was den sonstigen Transit durch Holstein betrifft, so ist derselbe auf dem Wege über Kiel auch im Jahre 1849 ohne alle Bedeutung gewesen, da keine Dampfschifffahrt stattgefunden hat und die früheren Gütersendungen über Kiel in den letzten beiden Jahren resp. über Lübeck und Wismar vermittelt worden sind. Auf der Straße zwischen Hamburg über Wandsbeck-Hansfelde und Lübeck sind im Jahre 1849 transittirt:

in östlicher Richtung circa	25,600,000 $\mathcal{R}$
in westlicher Richtung circa	27,200,000 "
Zusammen	52,800,000 $\mathcal{R}$

Eine Vergleichung des Transits auf dieser Route bei dem Zollamt vor Wandsbeck mit dem Jahre 1848 hat ergeben:

in östlicher Richtung für 1849 ein Minus von	1,351,284 $\mathcal{R}$
in westlicher " " " " Plus " "	2,966,918 "
es bleibt demnach ein Plus von	1,615,634 $\mathcal{R}$

Auf dem Wege von Hamburg resp. über die Zollämter Schiffbeck und Sande nach Mecklenburg und Preußen und in umgekehrter Richtung wurden im vorigen Jahre durchgemeldet:

auf der Eisenbahn	189,288,293 $\mathcal{R}$ Güter, 1588 Stück großes und 30,608 Stück kleines Vieh,
" " Chaussee	11,233,461 " " 941 " " 1,228 " " "
Zusammen	200,521,754 $\mathcal{R}$ Güter, 2529 Stück großes und 31,836 Stück kleines Vieh.

Der Transit auf der Hamburg-Berliner Eisenbahn im Jahre 1847 ist angegeben zu..... 118,600,000  $\mathcal{R}$  Güter  
im Jahre 1848 betrug derselbe ..... 144,600,000 " "  
und 1849 sogar ..... 189,300,000 " "

Von dem Plus des letzten Jahres gegen 1848 = 44,700,000  $\mathcal{R}$  fallen auf den Preussischen Verkehr circa 41 Millionen Pfund und auf den Verkehr von und nach Mecklenburg circa 3,700,000  $\mathcal{R}$ .

Im Herzogthum Holstein wurden im Jahre 1849 an Rauffahrtseifahrzeugen neu erbaut:

8 Schooner von .....	437 Commerzlasten Trüchtigkeit,
1 Schoonergalliotte von 55 1/2 " "	" "
4 Yachten von..... 34 1/4 " "	" "
17 Ewer u. dgl. von ... 187 3/4 " "	" "
4 Bote von ..... 7 3/4 " "	" "

zusammen 34 Fahrzeuge von ..... 722 1/4 Commerzlasten Trüchtigkeit.

Mit Ausnahme eines für Rechnung eines nordamerikanischen Bürgers gebauten Schooners von 61 1/2 Lasten und einer Yacht von 15 1/2 Lasten für Dänische Rechnung, waren sämmtliche Fahrzeuge für Inländer bestimmt.

Die Canalschiffahrt ist im vorigen Jahre wieder etwas lebhafter gewesen; es passirten nemlich 1940 Schiffe gegen 1832 Schiffe im Jahre 1848, mit- hin 108 Schiffe mehr, wie im letzteren Jahre. Der Nationalität nach waren unter den passirten Schiffen:

	1849	1848		1849	1848
Schleswig-Holsteinische .....	1393	1257	Mecklenburgische .....	2	2

				1849 mehr 108.	

Hinsichtlich des Verkehrs der Stadt Altona stehen nur Nachrichten über die dortigen Industrie-Anlagen und die Schiffahrt zu Gebote.

Von ersteren waren vorhanden:

1849: 161 welche 2150 Arbeiter beschäftigten und deren Fabrikat auf 7,941,340  $\mathcal{A}$  geschätzt ist,  
1848: 154 " 2035 " " " " " " 6,717,940 " " "

also in 1849: 7 Fabriken mit 115 Arbeitern und 1,223,400  $\mathcal{A}$  Fabrikat mehr als im Jahre 1848.

Besonders hervorgehoben zu werden verdienen:

	Zahl der Arbeiter.	Hauptfabrikate.	Geschätzter Werth des gesamten Fabrikats.
			<i>m<math>\mathcal{A}</math></i>
